## Who is behind mein-zelt-steht-schon?

We, Enrico Vlach and Nico Seifert, had a revolutionary idea in 2006 and set up a rental service that offers festival guests accommodations that have been set up to make their journeys to festivals less stressful and more pleasant. Our target group is wide-ranging and our product range has grown over the years, as has our regular clientele.

The result? Mein-zelt-steht-schon has become the leading provider of mobile camping services in Germany and is on the road at events from May to September with an experienced crew. We are present at dozens of music festivals every year, set up camps with up to 500 tents, and have accommodated tens of thousands of satisfied guests to date. And above all, we put our heart and soul into it.

## New paths

While our original business idea was aimed at festival guests, we often received requests to provide our services for private or corporate events as well. We are therefore continuing to develop our services and offer our many years of experience in other areas and for other target groups - all of this, of course, with the utmost commitment, passion, and reliability.
